ABOUT THE STATEN ISLAND COMMUNITY PARTNERSHIP

Founded in 2007, the Staten Island Community Partnership has worked hand-in-hand with community organizations, local businesses, service providers, and local government agencies to encourage and develop tailored programs, events, and approaches to keep families together and children safe.

Aiming to weave a safety net for families in the North Shore region of Staten Island, the Community Partnership provides educational programming that enriches the lives of children and their families. We engage community members in understanding their strengths and needs, and create sustainable solutions that produce positive change.

The Staten Island Community Partnership is supported by The New York Foundling and funded by the NYC Administration for Children’s Services.

The New York Foundling

Since our bold beginnings in 1869, The New York Foundling has supported hundreds of thousands of our neighbors on their own paths to stability, strength, and independence. With an internationally-recognized and interrelated set of research-backed services, The Foundling works in partnership with children, adults, and families in New York and in Puerto Rico who are working to create transformational change in their own lives.
